

NTI UPSTREAM PRESENTS:

# Moment to Moment: Teens Growing Up With FASDs

*Moment to Moment: Teens Growing Up With FASDs* explores the lives of four adolescents with Fetal Alcohol Spectrum Disorders (FASDs) and the effect that prenatal alcohol exposure has had and continues to have on their journeys to finding independence, fulfillment, and understanding the world around them.

*Moment to Moment: Teens Growing Up With FASDs* takes an intimate and eye-opening journey into the lives of those affected by FASDs, their families and friends, and captures the challenges that families must overcome as children with FASDs reach maturity and attempt to strike out on their own as young adults.
